Why Us

We **care more.**

We **work harder.**

We deliver **unsurpassed
quality experience.**

We exist to create significant
Opportunities for people that
day by day, shape our world.

Core Values

CHARACTER

**COMPETITIVE
SPIRIT**

RELATIONSHIPS

**SERVING
OTHERS**

The foundation of our collective success is rooted in our unwavering commitment to four shared core values. **We nurture employees through extensive training and an inclusive work environment,** so they can excel and achieve greatness.

Allegis Group **IT**

The IT department is leading Allegis Group through a digital transformation where we are seamlessly incorporating technology into our work to enhance who we are – a company committed to creating opportunity for those around us and for those who will come after us. We use technology and take an innovative approach to create exceptional experiences for our employees and customers.

APPROACH

We focus on quality, exceptional customer experiences and being innovative to deliver value to our business.

FOCUS

We know to stay ahead of our competition we must maintain our core applications while also putting an emphasis on coming up with new ideas, products and services that add value.

1¹/₂ - 2x
Rate of Industry

METRICS

We will measure our work as we are a key contributor to achieving the company's growth target.

Opportunities @ Allegis Group

Internship Program

Every year we host a 10 week summer internship program, with the goal to place students in departments that align with their majors/studies, so they can work on meaningful projects and gain exposure to our company.

Fresher Program

A fast-paced, two-year development rotational program designed for new graduates who want to gain broad exposure to IT. The program will allow on-the-job learning, mentorship and exposure to each IT department. At the end of the rotation the individuals will have an opportunity to transition to a permanent position consistent with their career interests and the needs of the IT team.
